**FLOAT ON A CLOUD:** Soft, inviting and voluminous, the blonde legs allow the Ana corner chaise suite to float elegantly. Muted dusky pinks and greens are refreshing for summer styling, and Hunters have a full range of accessories in store, including some beautiful linen cushions.

**WOOD TONES:** The different tones of wood in the sideboard, chairs and table work really well together here. The wide boards of oak in the dining table, combined with the solid metal elements, create a contemporary look. The table's tapered legs give a sense of lightness, which balances the oak. **👉**

**SUMMER SOFA OASIS:** The low profile of the Emilio sofa is perfect for beachfront homes, where the view of the ocean is the focus. The distinct, horizontal lines create a relaxed ambiance, devoid of clutter.

**TOUCH OF LUXE LEATHER:** I'm loving the extraordinary softness and refined stitching of the Gilmour leather sofa. Its elegance works well with the patterned ottoman.
