THE EXPERT

KATHRINE MCDONALD

Kathrine McDonald Design is an interior business based in Mount Maunganui.

Clean lines, natural materials and a monochromatic palette can be extraordinarily impactful. I love the visual effect achieved by using raw textures such as linen, wool, wood and marble, where you let the materials do the talking. Don't overcomplicate things - reflect architectural features in furnishings through curves and angles, and for a beautiful synergy ensure the elements all talk to each other. **U**
