

COSY UP FOR WINTER

EXPERT TIPS WITH KATHRINE MCDONALD

"Bringing softness into the bedroom is easy with fabric. Cushions, throws or an upholstered bedhead are perfect keynote accessories. By using a rich palate of burgundy and rust I've opted for a deep saturated colour wheel. Not only does this give a real wintry warmth, it also plays perfectly to both the masculine and feminine. Placing an Ottoman at the end of the bed brings the next layer of luxe, balancing the room, while doubling as practical by adding seating. An occasional chair is another hard-working piece that draws the eye but also serves a purpose".
